In view of the amendment and remarks filed on October 21, 2005, the art rejections have been withdrawn. The pending claims however are unpatentable as following:

***Election/Restrictions***

1. Applicant's election of group I (ie. claims 1-7) in the reply filed on March 23, 2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
2. This application contains claims 8-17 drawn to an invention nonelected with traverse in paper filed on March 23, 2005. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

***Claim Rejections - 35 USC § 112***

3. Claims 1 and dependents are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claim language "dielectric film has been etched to a controlled thickness of less than about 20  $\mu\text{m}$  (or 10  $\mu\text{m}$ )....." Is vague and indefinite, as it is unclear whether the limitation includes zero thickness?

***Allowable Subject Matter***

4. Claims 1, 3, 5-7 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
